

COVID-19 RESPONSE

This data has been collected from March to June 2020, showing Kids' Meals response to the COVID-19 pandemic.

7,400+ Children Fed Daily

Families of poverty live with no financial cushion and no food reserves. Poverty-stricken children are already living in a daily disaster, so when a significant event like the COVID19 pandemic strikes, they

are unprepared and most vulnerable. Kids' Meals, Inc. is on the front lines as a first responder to low income and poverty-stricken families who cannot feed their young children.

THE FACTS

3,850

children
under 6

1,800

Families

\$2

a day
